PROFILE

I am a proficient Python Django developer, well-versed in utilizing HTML, CSS, JavaScript, Bootstrap, TailwindCSS, My SQL and PostgreSQL to create dynamic web applications. My expertise extends to full- stack development, seamlessly integrating front-end technologies with Django for efficient solutions. Dedicated to responsive design principles, I consistently deliver high- quality code, ensuring exceptional user experiences.

EDUCATION

University of Calicut   **06 2020 - 03 2023**
